

INTRODUCTION

Welcome to the summer e-news from Manifique.

Summer is here so it's time to get serious about grooming and don't leave it til it's too late. (Having said that, I won't be too far away for the next couple of months) I won't be working the stat days; even I need to have some time out, but I will be around at all other times in December and January.

If you haven't had it done already this is what you can do to get yourself summer ready!

- ✓ **Facials** are an excellent way to have those dead skins cells exfoliated so

your skin feels fresh and looks brighter

- ✓ **A body scrub** will remove all those dead cells making you and your skin feel much smoother and refreshed (it is also very relaxing) - check out my special deal further on in this newsletter and treat yourself!
- ✓ Have those hands and feet checked with a **MANicure** and a **Pedicare** treatment - nails need to be nourished and cuticles treated
- ✓ **A massage** will aid in reducing stress and those unwanted toxins from your body to promote well being
- ✓ **Waxing** is the best way to remove any unwanted body hair and tidying up those important regions. Much more effective than anything you buy in the supermarket
